

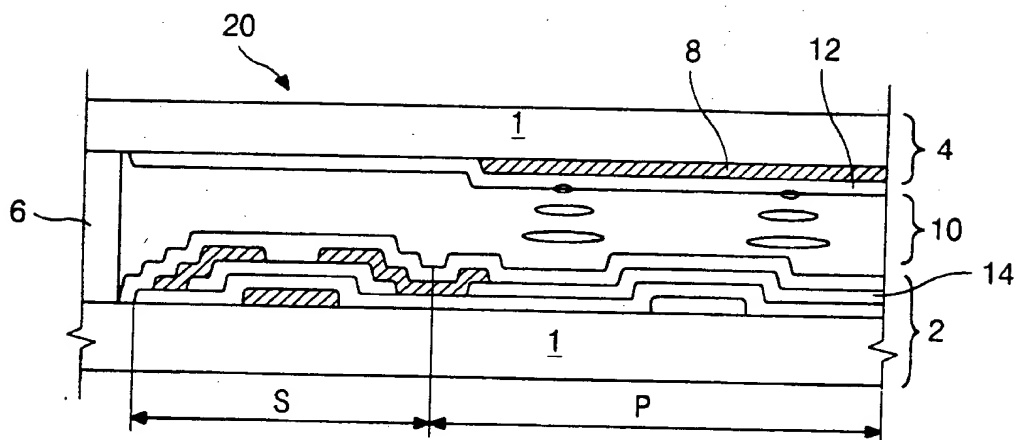

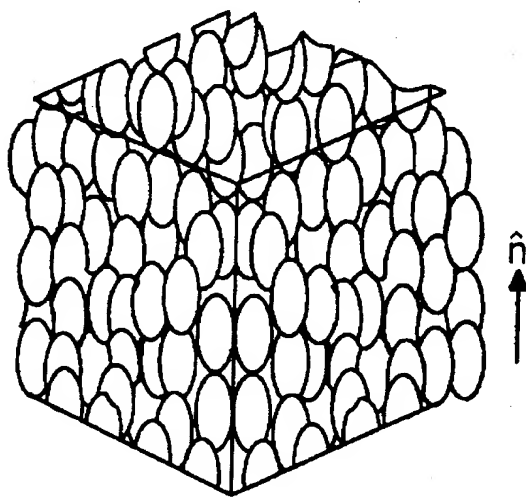

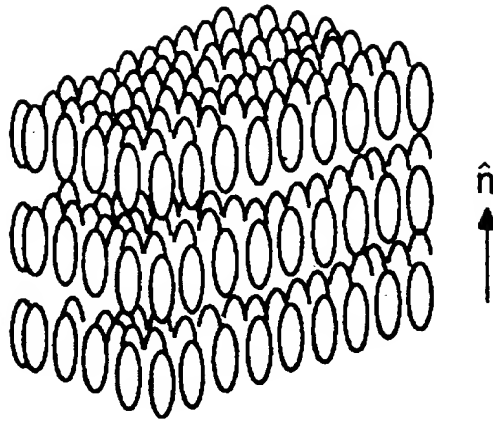

FIG. 1 is a cross-sectional view of a device 20, showing a substrate 1 with a patterned layer 8 and a layer 12. The device is divided into regions S and P. The patterned layer 8 is shown in cross-section, with a layer 12 on top. The substrate 1 is shown in cross-section, with a layer 14 on top. The device is divided into regions S and P. The patterned layer 8 is shown in cross-section, with a layer 12 on top. The substrate 1 is shown in cross-section, with a layer 14 on top.
